

## Course Descriptions

### Intro to Scrum

Our Intro to Scrum Videos are the most popular and most watched series that introduces you to the key foundations of Scrum including the main roles process, artifacts and important terms used. If you are new to Agile this is where you should start!!

### Intro to Kanban

This course offers a full in-depth view on how a Kanban system operates and how it can be applied to your team. You will learn each of the tenants of Kanban, how to set up your board, how to measure the flow of work and how to implement a Kanban system within your organization. In addition, we will cover advanced topics such as using Kanban in non-software environments, how to apply Kanban at a Program or Portfolio level, how Kanban applies to your full Value Stream, and tips on setting up your board.

### Agile Team Roles

Dig deeper into the various Agile Roles, including the 3 Scrum Roles. You will explore how traditional roles such as Sponsors, Management, Project Manager, Analyst, Developer, Tester change on an Agile Team. You will also learn about the role of Leaders and Executives and some of the top real world challenges with Agile roles.

### Agile Simulation

This unique Day in the Life of an Agile Team Simulation course follows the team as they go through all the Agile lifecycle activities from visioning, planning, writing stories, sizing, prioritizing, building a release plan and executing the key sprint/iteration meetings.

### Enterprise Business Agility

Our Enterprise Business Agility videos introduce you to guidance for leading & accelerating your journey – explaining the critical pillars of an Enterprise Business Agility transformation, defining the elements needed as you consider your transformation design, and providing detailed, real-world, best practice examples from the trenches.

## High Performing Teams

This series is a collection of real world practical videos that cover the topic of leading and becoming a high performing team. You will learn about the specific shifting to Servant Leadership and moving away from command and control. We will cover team collaboration and maturity stages and share practical tips you can use to resolve one on one conflict, facilitate effective meetings and address dysfunctional behavior.

## Effective Facilitation

This is a powerful series that will give you the skills to transform the effectiveness of your meetings immediately! You will learn through live demos and engaging group discussion how to respond to the top dysfunctional behaviors and use powerful questioning methods to control the flow of your sessions. Learn how to interpret body language and nonverbal feedback. Start transforming your meetings now!

## Facilitating the Top 10 Agile Meetings

This is a unique series that takes you deeper into the top 10 Agile Meetings and how to effectively facilitate them. For each meeting we will cover the purpose, deliverables, attendees, sample agenda and real world tips for facilitating an effective outcome. Watch experienced Agile practitioners share their knowledge and perform live demos. Your instructor Sally Elatta is a world class facilitator and Enterprise Agile Coach who shares practical and valuable tips you can use immediately to transform your Agile Meetings!

## PMI-ACP

Whether you're preparing for the PMI-ACP exam or just want to learn the full Agile lifecycle in-depth covering topics such as visioning, planning, estimating, backlog creation, iteration execution and lean/kanban, this in-depth series is right for you. Through an engaging combination of discussion, group interaction, case studies and workshops, you will learn not only how to apply Agile, but will gain the experience necessary to immediately implement Agile practices that are appropriate for your teams.

## Deep Dive Webinars

Watch this set of practical and engaging webinars that dive deeper into many introductory to advanced topics on Agile. Prepare to take lots of notes!
